

STAR LAKE TOWNSHIP E-BULLETIN # 62

April 11, 2023

SUBJECT: 2023 Dust Control Program

This serves as a reminder that applications and payment for the 2023 Dust Control Program are due by May 1st. Applications may be obtained by visiting starlaketownship.org, clicking on the Road Services tab, and down-load the form listed at the bottom of the Dust Control Policy.

The dust control agent is Liquid Calcium Chloride which is the same as that used by the MN-DOT. This year the cost for application will be \$0.78/linear foot (linear ft @ 18 ft wide). SLT charges no service charge for this program, despite some significant road preparation and administrative costs—our vendor cost is your cost.

Our cost is also volume-based: therefore, the quoted \$0.78/ft “assumes” our volume will remain about the same as last year.

Your full payment must be received by May 1st, and dependent upon weather conditions, road restrictions, and vendor scheduling, the actual application of the chemical will take place by mid to late June. Timely application submissions drive cost and date of actual application. *Please complete & submit your application along with payment to: Star Lake Township, PO Box 61, Dent MN 56528*

Complete details of the program are also on the website. Please direct any specific questions to Dale Lewis at sup1@starlaketownship.org or to Paulette Johnson at clerk@starlaketownship.org.

Respectfully, Star Lake Town Board
