

## STAR LAKE TOWNSHIP E-BULLETIN #56

MARCH 15, 2022

SUBJECT: 2022 Dust Control Program

This serves as a reminder that applications for the 2022 Dust Control Program are due to the Town Clerk by April 1<sup>st</sup>, 2022. Applications may be obtained by visiting [starlaketownship.org](http://starlaketownship.org), clicking on the Road Services tab, and down-load the form listed at the bottom of the Dust Control Policy.

It is important that we receive these in a timely manner so we can negotiate our best volume-based price from our vendor. The dust control agent is Liquid Calcium Chloride which is the same as that used by the MN-DOT. This year the cost for application will be \$0.74/linear foot (linear ft @ 18 ft wide). SLT charges no service charge for this program, despite some significant road preparation and administrative costs—our vendor cost is your cost.

Our cost is also volume-based: therefore, the quoted \$0.74/ft “assumes” our volume will remain about the same as last year. Accordingly, it is important that we receive your application by April 1<sup>st</sup> to permit us to place our order with the vendor.

**Your full payment must be received by May 1st**, and dependent upon weather conditions, road restrictions, and vendor scheduling, the actual application of the chemical will take place by mid to late June. Again, timely application submissions drive cost and date of actual application. *Please complete & submit your application ASAP!*

Complete details of the program are also on the website. Please direct any specific questions to Jeff Michaelson at [roads@starlaketownship.org](mailto:roads@starlaketownship.org) or to Paulette Johnson at [clerk@starlaketownship.org](mailto:clerk@starlaketownship.org).

Respectfully, Star Lake Town Board
