

STAR LAKE TOWNSHIP E - BULLETIN # 33

Mar. 9, 2020

SUBJECT: 2020 Dust Control Program

This serves as a reminder that applications for the 2020 Dust Control Program are due to the Town Clerk by April 1st, 2020. Applications may be obtained by visiting starlaketownship.org, clicking on the Road Services tab, and down-load the form listed at the bottom of the Dust Control Policy.

It is important that we receive these in a timely manner so we can negotiate our best volume-based price from our vendor. This year we will be using *Liquid Calcium Chloride* versus Liquid Magnesium Chloride as the latter is no longer available in this area. **Unfortunately, this change will result in an increased cost of \$.78/linear foot (vs. \$.68/foot previously)**. SLT charges no service charge for this program, despite some significant road preparation and administrative costs – our vendor cost is your cost.

Our cost is also volume-based; therefore, the quoted \$.78/ft. “assumes” our volume will remain about the same as last year. Accordingly, it is important that we receive your application by **April 1st** to permit us to place our order with the vendor.

Your full payment must be received by May 1st, and dependent upon weather conditions, road weight restrictions, and vendor scheduling, the actual application of the chemical will take place by mid to late June.

Complete details of the program are also on the website. Please direct any specific questions to Lee Mindemann at sup2@starlaketownship.org.

Respectfully, Lee Mindemann – SLT Board
