

STAR LAKE TOWNSHIP E - BULLETIN # 44

Oct. 14, 2020

SUBJECT: *County Highway 41 Now Open for Traffic!*

No matter what Google Maps may say – the Star Lake Bridge on County Hwy 41 is now open.

Otter Tail County Highway Department workers are putting the finishing touches on the official reopening of the Hwy 41 bridge on Star Lake. Star Lake area residents have some new front-line workers to admire and thank today.

The bridge has been closed since September 6th due to an unfortunate act of arson. The closing caused for a great inconvenience for area commuters. The bridge will carry a new lighter weight restriction until such time as the permanent replacement is made. The new weight restriction will be 14 ton for single axle vehicles, and 22 ton for semi's with tandem axle trailers.

It should be noted that the pedestrian walkways on each side of the bridge will REMAIN CLOSED – so pedestrians and drivers should be mindful of speed and safety.

THANK YOU OTTER TAIL COUNTY!

Respectfully, SLT Town Board
